Harvest Schedule

Tip from a farmer: Please remember that our produce grows according to Mother Nature's calendar. While we try our best to estimate the dates that everything will be available, these are just approximations. Give us a call each year before you come out for your favorite produce, and we will be able to tell you when it will be ready on that particular year.

	January	_Jebruary	March	April	May	June	July	August	September	Cctober	Movember	December
